FOR IMMEDIATE RELEASE

AREA LANDSCAPER CELEBRATES 25 YEARS IN BUSINESS

MIAMISBURG, OH –January, 2009. Grunder Landscaping Company, founded by teenage brothers Marty and Rich Grunder in 1984, is observing its’ 25th year in business in 2009 with a year-long celebration. “Our keys to success have been exceptional service to our clients and always operating our business with honesty and integrity”, says Marty Grunder, President and CEO.

Since beginning in 1984 with a used lawnmower and a borrowed truck to mow lawns in the Centerville area, the company has become one of the Miami Valley’s largest and best-known, full-service landscapers. In recent years, Grunder Landscaping has twice been recognized by the Better Business Bureau as a winner of the Eclipse Integrity Award. The company has also been honored with 25 Entrepreneurial Awards and 10 National and State Awards for innovative landscape designs and water features. In October, 2008, “Lawn & Landscape” Magazine and Bayer Environmental Science named Marty Grunder one of six national winners of its’ annual Leadership Awards. In addition, Grunder Landscaping was recently recognized by a leading landscape industry association, PLANET, for having no vehicle accidents during 2007.

On average, the company employs 45 team members and has 30 or more vehicles on area roads each business day. Primary lines of business are custom landscape design and construction, paver installation, water features, and landscape maintenance services.

Another important milestone will be observed in 2009 when the company launches a new business, Marty’s Mulch and Landscape Supply, a retail and wholesale mulch delivery business. The new business will be located on company-owned property adjacent to the Grunder Landscaping facilities.

Grunder Landscaping Company is located at 9770 Byers Road in Miamisburg, serving both residential and commercial clients. The company employs 14 Ohio Certified Nursery Technicians.
